OBJECTION TO PROPOSED SETTLEMENT

FOR YOUR ATTENTION
ANNETTA

Clerk of the Court
United States District Court
Northern District of Texas, Dallas Division,
At United States Courthouse

Dear Federal Court,

Please accept this letter as a serious objection to the proposed settlement by Verizon's, (Super Media, LLC and all its so called subsidiaries), their attorneys and the retiree's attorneys.

It's been noted through the settlement proposal received by me that the retiree's attorney cut their selves a deal with Verizon's/Super Media's attorneys so they get paid \$140,000 plus expenses.

I' am forwarding with this notice a copy of a letter to those attorneys which by it's attachment I would like this court to make an internal part of my objection.

What happened to my 35 years of working for Verizon and the signed early out retirement I took which included lifetime health and medical benefits?

Your acceptance of this so called settlement will set a precedent that will have a repeal effect throughout courts in the United States.

Clerk of the court part II, March 17, 2014

Maybe one that in time will see the Federal Government form an agency called *Rip Off Government Employees Retiree's Fund* and than take all its value and spin it off and bankrupt it?

Than you and all federal employees no matter how long or faithfully you worked for the federal government expecting to receive your written health and medical benefits on retirement will be left with nothing!

In the case of the some 2800 retirees who lost their health and medical coverage there was many who had a written agreement/offer between Verizon and them selves that if they took early retirements there would be certain benefits paid them by Verizon.

Going past a cash contribution one of the major considerations for early retirement by those retirees was Verizon's written agreement/offer that they could keep their health and medical insurance if they accepted early retirement.

The keeping of a health and medical plan for them and their dependents was to this class of retirees a major factor in their decisions to accept Verizon's written agreement/offer.

Prior to accepting Verizon's agreement/offer none believed that Verizon would form a spin off company called Super Media and removing all Super Media's assets than bankrupt it and than stop payment on its early retirees written agreement/offer.

This court should hold these retirees in a special class from this settlement and also not release from their representation the attorneys that represented the retirees in this class action and agreed to this settlement offer. I Remain,

Sincerely,

A handwritten signature in cursive script, reading "Annetta F. Pugia".

Dear Gentlemen,

Find my objection attached, now allow me to tell you both that I believe without a doubt you both secured your selves some fees and Expenses and than by order of the court forwarded a scare notice of this class action settlement mailer to all retirees selling us out!

Where did you begin to agree with Super Media on federal law ERISA before you took this action or sometime into the merits and or discovery of it?

Did you ever read and interpret the written agreement/offer Verizon made to a certain class of retirees that accepted Verizon's offer for early retirement and put that written agreement/offer against the federal ERISA? I don't believe so, for SHAME! I Remain,

Sincerely,

Annetta Farber Pugia
